Product

Mirror polished stainless steel lobby with frameless glass door and access control

Overview

Nationwide Door Systems manufactured, supplied and installed this mirror framed box lobby with 12mm toughened glass door complete with magna lock and access control.

Technical Information

The mirror polished frame is manufactured from 100 x 45mm Drawnmet section mechanically fixed complete with removable beads for the 12mm toughened glass fixed panels. The glass door is manufactured from 12mm clear toughened glass and 100mm mirror polished top & bottom door rails. The top rail incorporated an Adams Rite magna lock which is remotely operated from the reception desk.
