

## Notre Dame High School, Sheffield

### **Project**

Notre Dame High School, Sheffield

### **Product**

Glass tension rod canopy system

### **Overview**

Nationwide Door Systems supplied & installed an architectural glass canopy system to protect the entrance area of an extension to Notre Dame High School in Sheffield

### **Technical Information**

Our installation team fitted the canopy brackets from a timber template to exact sizes. The canopy system is tailor made to fit securely above the door opening with the glass manufactured using toughened laminated safety glass with a clear interlayer. The frameless glass canopy maximises light, provides protection and complements the style of the property
